DETAILED ACTION

1. Claims 1-13 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 14-43, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement between Groups I and II- IV as set forth in the Office action mailed on February 3, 2006 is hereby withdrawn. The restriction requirement between Groups I and V is not, however, withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

As discussed in the interview held January 31, 2007, and presented in the amendment filed February 2, 2007, claims 34-38 have been canceled and moved to the CIP application, 11/046,271 to preclude the necessity of a terminal disclaimer and nonelected claims 48-50 have been canceled.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Applicants have argued that Hubbel et al. do not suggest urease as a chemotherapeutic agent since it is discussed in the Metabolic Disorders section of the paragraph and not in the Chemotherapy section. Examiner agrees that this interpretation is more logical than the Examiner's initial interpretation. Search of the prior art shows that, in fact, urease has not heretofore been taught as a chemotherapeutic agent for treating cancer and the instant claims are therefore not anticipated nor rendered obvious and are patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
